

Insight visit in Hamburg: Guidelines to writing a report

Informal reports from prospective PhD students who have previously received funding for their insight stays in Hamburg offer first-hand information, which is not only necessary for us as MIN Graduate School to evaluate our processes, but also for your fellow potential PhD students who are looking for inspiration. Below you will find a list of topic suggestions – please feel free to mention as many aspects as you like in the report. Be sure to attach 1-3 pictures.

Topic recommendations

Application

- Did you receive the necessary information about the application procedure on our website?
- Were you satisfied with the information provided by MIN Graduate School?

Preparing for the insight stay

- What was the scientific aim of your stay (short and generally understandable)?
- How did you prepare for your journey? Have you contacted anyone, organized a meetup etc.?
- General travel preparations: Did you need a visa? If yes, how much did it cost? Was it difficult to get a visa? Did you need any additional health insurance? Were any medical examinations necessary?

Accommodation

- How did you find your accommodation?
- Were you staying alone or did you share the space?
- How did you get from your accommodation to the university facilities?

Course of the research or conference visit

- Did you have access to all the necessary university facilities (e.g. labs, libraries)?
- What do you think about the scientific supervision of your project?
- How would you evaluate the exchange with other researchers?
- Could you accomplish your scientific goals?

Everyday life

- What experiences did you make in terms of the intercultural exchange?
- What did you like about Hamburg/what did you not like?

Summary

- How can the acquired insights be helpful for your PhD project and/or for your further career?
- What would you recommend to your fellow students who are going on a similar trip?
- What could you have done differently?
- What was your personal highlight? Were there any special positive or negative experiences you would like to share?
- Do you have any other suggestions for improvement?

Photos

Please attach 1 to 3 pictures: for a short report one should be sufficient, for a longer report we would be happy to have two or three to properly illustrate your text.

Let us know if you have any questions!
