JUNIOR PROFESSORSHIP (W1) WITH TENURE TRACK LEADING TO A W2 (TENURE-TRACK-PROFESSORSHIP) FOR INORGANIC CHEMISTRY, WITH A FOCUS ON MODERN METHODS OF SYNTHESIS

Institution: Faculty of Mathematics, Informatics and Natural Sciences
Salary level: W1 with Tenure Track leading to a W2
Commencement of duties: Winter Semester 2022
Application deadline: 2022-03-24

Responsibilities:

Responsibilities include teaching and research in inorganic chemistry in the Department of Chemistry. Research activities at the forefront of modern topics in inorganic chemistry are expected, with a major focus on the synthesis and characterization of functional molecules and materials. Teaching responsibilities involve all aspects of inorganic chemistry.

The successful candidate has an international track record of research in the chemical synthesis of functional inorganic molecules/materials. The candidate’s expertise should complement the research on nanomaterials, catalysis, and energy of the Department of Chemistry at Universität Hamburg. Collaborative projects within the Faculty of Mathematics, Informatics, and Natural Sciences and with the local networks (e.g., clusters of excellence, graduate schools, DESY, Hamburg University of Technology, etc.) are highly desired.

Teaching of Inorganic Chemistry topics is required at the undergraduate and graduate levels in theoretical and practical courses and labs.

Section 12 subsection 7 sentence 2 of the Hamburg higher education act (Hamburgisches Hochschulgesetz, HmbHG) applies.

Requirements:

Academic qualifications and additional requirements as specified in Section 18 HmbHG.

Additional Criteria:

Applicants are expected to have international research experience as well as a successful track record in acquiring external funding and carrying out externally funded projects.
The University places particular emphasis on the quality of teaching and therefore requests that applicants provide details of their teaching experience and objectives.

Non-German-speaking post holders are expected to acquire the language skills necessary to teach in German (Level C1 of the Common European Framework of Reference for Languages) within two years of commencing employment.

Junior professors have academic autonomy in their research and teaching. Applicants’ subject interests are expected to relate to topics in the area of inorganic chemistry.

A tenure-track evaluation will be conducted during the second phase of the junior professorship in order to determine whether requirements for appointment to a W2 professorship have been met. Section 15 HmbHG applies. If the evaluation is positive, the candidate will be offered a tenured W2 professorship. The regulations prohibiting internal appointments also apply to this junior professorship.

As a University of Excellence, Universität Hamburg is one of the strongest research universities in Germany. As a flagship university in the greater Hamburg region, it nurtures innovative, cooperative contacts to partners within and outside academia. It also provides and promotes sustainable education, knowledge, and knowledge exchange locally, nationally, and internationally.

As a University for sustainability, we put human resources development and especially the development and advancement of our early career researchers at the fore of our strategic endeavors. By strengthening the tenure-track professorship, Universität Hamburg has introduced a specific career opportunity for early career researchers. Junior professorships are aimed at researchers in the early stages of their career, within four years after completion of doctoral studies.

Due to the success of the tenure-track program run by the Ministry for Education and Research Universität Hamburg invites applications for this tenure-track professorship.

In accordance with Section 14 subsection 3 sentence 3 HmbHG, Universität Hamburg seeks to increase the proportion of women in teaching and research and encourages female academics to apply.

Severely disabled and disabled applicants with the same status will receive preference over equally qualified non-disabled applicants.
