Overview of Beijing Institute of Technology

Beijing Institute of Technology (BIT) is a leading public university in China. Established in 1940 in Yan'an, the university was originally named as Academy of Natural Sciences. In 1949 the school moved to Beijing and was renamed as Beijing Institute of Technology after merging with the Sino-French University in 1952. In 2013, there are a total of over 14,000 undergraduate students, more than 11,000 postgraduate students, around 900 international students and over 3500 employees, among whom 2058 are full-time academic faculty staff.

At present, BIT offers 66 undergraduate programs, 193 master programs, 97 doctoral programs and 19 postdoctoral programs. It is organized into four faculties, 19 academic schools, with a variety of academic focus including aerospace engineering, mechanical

engineering, mechatronical engineering, information and electronics, optoelectronics, automation, software engineering, material science and technology, life science, computer science and technology, chemical and environmental engineering, mathematics and statistics, physics, chemistry, humanities and social sciences, management and economics, law, design and arts, foreign language studies and pedagogy.

BIT is one of the first-tier of national "Project 211" and "Project 985" universities. BIT received considerable trilateral supports and endowments under the agreement signed by the Ministry of Education, the Commission of Science, Technology and Industry for National Defense, and the Beijing Municipal Government in September 2000.

As one of top universities in China, BIT assumes itself with great responsibilities in promoting national science and technology advancement. Since the founding of the university, BIT has undertaken a tremendous number of national, ministerial and provincial

Beijing Institute of Technology

research projects, producing outstanding innovative products and technologies with historic significance, most of which are closely related with major national demands. Take a few examples, in the 1950s BIT researchers designed the first low-angle, height finding radar in China, the first sounding rocket, the first planetarium and the first TV antenna in China. In 2008, the pure electric vehicles developed by BIT were successfully operated during the Beijing Olympic Games. In 2011, the real-time signal processor of microwave radar designed by BIT was employed for Spacecraft Shenzhou VIII unmanned docking with Space Module Tiangong I in 2011.

In terms of fundamental research, BIT ranks top 1% in the world by Essential Science Indicator in engineering, material

science, chemistry, physics and mathematics. As for the annual research fund, BIT ranks top 10 in Chinese universities.

Under the context of globalization, BIT has attached great importance to international collaboration and constructed a wide range of international network across the world. By 2014, BIT has established formal collaborative relationship with more than 200 universities across 57 countries and regions. With these universities, BIT has conducted fruitful cooperation in teaching, research and cultural exchange. Due to the wide international network, the students and teachers at BIT are easily able to expose themselves to international experience. Additionally, the university has also formed strategic partnership with over one hundred international corporate enterprises.

UNIVERSITY OF CHEMISTRY AND TECHNOLOGY PRAGUE

University of Chemistry and Technology, Prague (UCT Prague) is the largest university focused on technical chemistry in Central Europe, and is one of the top universities in the Czech Republic. UCT Prague is a public higher education university known for the depth and breadth of its educational and research activities in almost all branches of chemistry, chemical engineering, food chemistry and technology, biochemistry, refining, water treatment, power and biological sciences and technologies, as well as environment protection, materials sciences, and other chemistry-based fields of study.

The basic pillars of international activities of UCT Prague are **international scientific and research projects, inter-university cooperation agreements, joint degree programmes with other universities, and Erasmus+ exchange activities**.

100 MEMORANDA OF UNDERSTANDING WITH INSTITUTIONS WORLDWIDE

<complex-block>

science...

... in cooperation with industry

ERASMUS+

32 European FP7 & HORIZON projects:

- 120 Erasmus+ bilateral agreements
- 230 incoming students/academic year (France, Spain, Turkey, Belgium,..)
- 100 outgoing students/academic year (out of almost 4000 students) (Scandinavia, UK, Germany, Netherlands,..)
- International students might attend courses at Bachelor and Master level, do project work, internship – tuition and supervision is in English.
- UCT Prague boasts with a very active student organisation Erasmus Student Network (ESN).

DOUBLE/MULTIPLE JOINT DEGREE PROGRAMMES:

Erasmus Mundus

- 5 Master DD (Switzerland, France, Italy)
- 2 Master Joint Degrees (ERASMUS MUNDUS in Membrane Engineering = EM3E, ERASMUS MUNDUS in International Master of Science in Environmental Technology and Engineering = IMETE)

 2 Doctoral Multiple Degrees (ERASMUS MUNDUS Doctorate in Membrane Engineering = EUDIME) and European Joint Doctorate programme = SUPER-W

Doctoral "cotutelle" (jointly supervised dissertation theses)

UCT Prague organizes 3 one-week intensive courses in the autumn and spring time for students from European universities.

CHEMISTRY QUALITY EUROLABELS

Chemistry Eurobachelor label was awarded to several Bachelor study programmes taught at UCT Prague.

PROJECT "STUDY IN PRAGUE"

UCT Prague is a member of a consortium of 5 public universities in Prague (Charles University, Czech Technical University, University of Chemistry and Technology Prague, Czech University of Life Sciences, University of Economics).

The aim of the project is to jointly promote study degree programmes in English.

STUDY IN ENGLISH

UCT Prague offers:

- 1 Bachelor degree programme (4 specializations)
- 1 Master degree programme (5 subprogrammes)
- 13 Doctoral degree programmes

Chobotix - Chemical Processing by Swarm Robotics (ERC-2007-StG)

Pramicidis - The Millimeter Wave Circular Dichroism Spectroscopy as a Powerful Tool for the Exploration of Molecules (FP7-PEOPLE-2007-2-2ERG)

WHICH INTERNATIONAL ACTIVITIES ARE WE INTERESTED IN?

- Exchange programmes for academic and research staff
- Exchange programmes for students

 all levels
- Partnership for joint research projects
- Joint and double degree study programmes
- Stable and long lasting cooperation with universities

Goba Engagement Satisfaction National student survey at The University of Bath

Randolf Köhn

"To be recognised as an international centre of research and teaching excellence, achieving global impact through our alumni, research and strategic partnerships"

Core Priorities:

- Building a research network
- Building an education network
- Projecting the University overseas

Working with our Partners Through a multifaceted

Comprehensive and research-led with focus on excellence. It includes:

STUDENT

- A strategic approach aimed at creating an architecture to leverage excellence
 - o Developing strategic research partnerships
 - o Attracting talent from around the world (students and staff)
 - O Enhancing the international student experience
 - Promoting Student and Staff Mobility
 - o Internationalising our curriculum
 - o Promoting transnational education
 - o An integrated approach, in which the
 - Internationalisation Strategy is embedded into
 - other key areas of the University
 - (Research, Learning and Teaching, etc.)

What we do to help

approach:

- Research collaborations leading
 - to co-authored publications
- o PGR, Staff and UG Mobility
- o Teaching collaborations
- Capacity building

O Information gathering & sharing

o Incoming & Outgoing visit co-ordination

O Showcasing success stories

O Support identification of potential research partners (with library)

O Advice on international funding opportunities (with RIS)

O The Bath International Research Funding Schemes

SDU

Erciyes University was established under the name of Kayseri University in 1978. Gevher Nesibe Faculty of Medicine was established as an affiliate of Hacettepe University in 1969, and Kayseri Faculty of Business was established in 1977; these two academic units formed the core of the Kayseri University.

Since 1984 graduate education at Erciyes University has become quite important. Currently there are 65.000 BSc students, 9.000 MSc students and 1.500 PhD students that are receiving education at the Institutes of Natural Sciences, Health Sciences and Social Sciences, Fine Arts, Educational Sciences, Atatürk's Principles and History of Turkish Revolution and Gevher Nesibe History of Medicine.

ERU (Ercives University), Foreign Relations Office represents our university abroad and facilitate all aspects of the programs. We provide our domestic & international students, and academic staff with all the counseling, advice, and information about their host country that is necessary for them to go to school and work abroad.

There have been made with more than 40 universities Erasmus staff and students exchange projects. Every year more than 270 students accepted for Erasmus exchange program. There is also Mevlana program which does not include EU countries. This program is supported by Turkish government.

Erciyes University Foreign Relations Office Duties and Responsibilities;

Implementing internationalization strategy of the university,- Carrying out activities for students and faculty staff, - Establishing bilateral and multilateral cooperations with universities intended for educational and academic purposes, Taking necessary steps for students and staff to make their mobility, - Participating in the training, research and promotion fairs both in the country and the abroad, Ensuring orientation training for foreign students, - Ensuring the announcement of internships, projects, congresses, conferences etc. to the students and the staff, - Coordinating necessary studies with other relevant departments of the university during the visits of foreign or domestic representatives.

Università degli Studi di Padova

- A budget of € 537 million
- 60 million € / year for research (external and internal)
 58,000 students
 1,300 doctoral candidates
- Over 12,00 graduates each year 2,092 professors & researchers 2,268 technical & administrative staff
- 14 Halls of Residence & Guest Houses
 - 18 University Canteens
- 32 Departments
 1 University Hospital
 1 Veterinary Hospital
 - 1 Experimental Farm
 - 1 School of Excellence
- 1 Museum Centre
- 1 Library Centre

International university cooperation Main Programmes: Cooperation initiatives: staff mobility: capacity building & sharing of experience/ procedures International summer and winter schools:

support to high-quality short-term courses, for Italian and foreign participants

International Networks

AUGM – Asociación de Universidades Grupo de Montevideo COIMBRA GROUP ESRUC – Eurasian Silk Road Universities Consortium EUA – European University Association T.I.M.E. Triangulum ViU (Venice International University) World100 Reputation Network

Internationalisation policies at Padova

Mission: "strengthening the university international vocation" and "increasing the number of students and researchers/professors from abroad" to increase diversity and improve the position in international rankings.

Focus on targeted activities, within the university, and agreements and relations with top-level HEIs, especially within international networks.

Main intervention areas:

- university attractiveness as perceived by a foreign audience
- quality of educational offer and services
- relations with international networks and mobility
- funding

Objectives and strategies of internationalization:

- 1. enhance image and communication abroad
- 2. improve performance in international rankings
- 3. develop competences and motivation
- 4. a more attractive educational offer for an international audience
- 5. reduce bureaucratic obstacles to the internationalisation process
- 6. enhance quality of services for students and staff
- 7. increase mobility of degree seeking students & academic staff

International Student Mobility

Through Erasmus+, Erasmus Mundus, bilateral agreements, double & joint degrees, etc.

- **Erasmus+ mobility for study (in and outside the EU):** 1,485 bilateral agreements with almost 450 universities in 50 countries (Academic year 2015/2016).
- **Erasmus Padova Association** acknowledged as the best in Europe at the Annual General Meeting of the Erasmus Associations held in Budapest in 2011.

Approximately 280 bilateral agreements (non Erasmus) with institutions worldwide

Organisation of events for international students (e.g. Welcome Days)

International Staff Mobility:

Notably:

Visiting scientists: grants for short (1-3 months) visits of foreign scholars

Visiting professors: teaching positions for foreign scholars and professionals

- + mobility in the framework of other institutional programmes (e.g. Erasmus+ Teaching Staff & Staff Training mobility, bilateral agreement etc.)
- + organisation of events for international staff (Erasmus staff week, delegations' welcome, etc.)

Project counselling and management:

1. Support to participants in EU and other international projects:

information, counselling, contact with National & EU bodies, support to draft documents, fill in forms and prepare budget, in the framework of:

- Former EU programmes with still ongoing projects, EuropeAID,
- the current "Erasmus+ programme" and many others

2. Organisation of events on internationalisation topics:

meetings for staff aimed at enhancing internationalisation awareness and knowledge of EU & other programmes and initiatives.

Mobility at Padova 2015-16: Erasmus+ and other programmes brought over almost 4000 students

Other internationalization activities:

English courses for teaching and administrative staff LEAP2 and LEAP project (Learning English for Academic Purposes) – 2013/14 and 2014/15 – to improve linguistic competence of professors who teach in English.

Activities organised:

Intensive course, Summer & Winter School, Blended English Medium Instruction Course, Language Advisor: individual counselling, Lecturer Support Service, Workshops on specific topics) English for administrative staff: 3 levels (B1, B2 & C1) **Training course on EU project management** 2 levels (beginner, advanced)

Most of the international activities are run and carried out by the International Relations Office (**Servizio Relazioni Internazionali**) of UniPD, which deals within 4 main fields:

- International Mobility
- International university cooperation
- Project counselling and management (Education and training projects)
- Networking

Thank you for your kind attention! relazioni.internazionali@unipd.it

Founded in 1960, the **RUDN UNIVERSITY** is among the five best universities in Russia.

Six "I" as key factors of success:

- Innovative training
 - Interdisciplinary training
- International training
- Intellectual training
- Impacting society training
- Improving health and the lifestyle factors training

International training means most culturally diversified educational and research programmes, including joint Master, PhD & Bachelor programmes.

Among 28000 students – 7100 international students from more than 150 countries.

Alumni are working in 190 countries.

Scientia unescamus 90,000 foreign nationals from more than 170 countries

150 join programmes with 100 foreign universities.

International Head Office of CIS Network University & University of Shanghai Organization.

Participant of the BRICS Network University, taking 86 position in rankings of BRICS top-universities.

RUDN University is a leading University of the Consortium of Higher Education Institutions implementing a Master program "International Human Rights Protection" supported by the Office of the United Nations High Commissioner for Human Rights.

Annually honored guests including royal persona, presidents, prime ministers, prominent politicians and public figures pay visits to RUDN University.

Hello Dear Colleague,

My name is Seyit KÖSE. I am Institutional Erasmus Co-ordinator in addition to an academic staff at Abant Izzet Baysal University (AIBU) in Bolu / TURKEY.

AIBU has a lovely campus including all the necessary facilities for its students and staff, which is next to Bolu city center, in Bolu province. It takes place on the high way between two most populated cities Istanbul and Ankara (most populated north-west part of Turkey), which has an easy reach with about three hours to Istanbul and two hours to Ankara by bus. Bolu-province and -city center have relatively about 290 and 160 thousands of populations. AIBU has a student population over 30 thousands in total. So, Bolu is a rather student-oriented city with its various facilities for them. Province has a quite generous-attracting nature for incomings with its mountains, lakes, plateaus etc. Bolu is a quite wealhy, peacefull and crime-free city. Accodomation and other life costs are fairly reasonable for students. In brief, it is a student friendly city.

The university has 9 different faculties, 6 four years based higher education schools and also 6 two years based vocational higher education schools in some towns spreaded around the province. In addition to Faculty of Agricultural and Natural Sciences, Departmetn of Mathematics, Department of Mathmatic Teachers, Faculty of Mass Media and Communication, Schools of Physical Theraphy, Rehabilitation, Nursing, Physical Education and Sports and Cooking and gastronomy are quite well known ones in Turkey.

The university has hosted about 250-300 international students from various Africa, Middle East, Thrace, and East Assia countries as well as about 30-40 Erasmus incomings a year. However, about 15 foreign academic staff have worked at the university yet. AIBU has about 150 outgoing Erasmus students for studying and internship in Europe. The institution has figured out lagging behind in those numbers, so that it has encouraged to increase them and the quality in international issues in recent years.

I am looking forward to meet you at the International Week in Hamburg,

Kindest regards,

Seyit KÖSE (*Ph.D. in Economics*) Institutional Erasmus Coordinator Abant Izzet Baysal University Erasmus Office, Bolu 14030 / TURKEY Mobile Phone: +90 (544) 812 95 02

universität wien

EXCHANGE STUDENTS

approximately 2,700 exchange students from all around the world are received and sent by the University of Vienna each academic year.

NEW PROFESSORS

over 70 %

is the proportion of newly appointed professors from abroad. Approximately 33 % of the academic staff come from abroad.

PARTNER UNIVERSITIES

70 + 370

With its 70 partner universities around the globe and about 370 ERASMUS partner universities, the University of Vienna benefits from its international network.

An international University

The University of Vienna is the central and most important actor in the internationalisation of the tertiary sector in Austria. This is related to the size of the University, its spread of subjects, the attractive location and the active pursuit of the Internationalisation strategy.

Facts & figures

Roughly one quarter of students are non-Austrians, more than 2,700 exchange students are welcomed and supported at the University each year. Conversely, the University assists the mobility of around 1,000 outgoing students. One third of academic staff of the University of Vienna comes from abroad, the percentage of newly appointed professors from abroad is over 70 %.

The University raises over EUR 15 million from the European funding sources every year. More than 70 partner universities, approximately 370 ERASMUS partner universities and memberships in organisations such as EUA, UNICA, ASEA-UNINET, and ACUNS ensure excellent international networking at an institutional level.

F THE UNIVERSITY of EDINBURGH Go Abroad

Exchanges

- We have around 300 student exchange partners in nearly 40 countries world-wide.
- The options are either general or subjectspecific.
- In the 2017-18 academic year, we will send approximately 435 students on an Erasmus exchange, 10 on a Swiss European Mobility exchange, and 450 students on an International exchange.

Erasmus Traineeships

- From the 2014/15 academic year to the 2015/16 / academic year, our number of outgoing trainees increased by 90%. For 2016/17 an increase of 40% is expected from 2015/16.
- We are using the traineeship programme to encourage students with fewer subject-specific agreements to go abroad.
- All students (including recent graduates) can apply for a voluntary traineeship outside of semester time.
- Some subject areas allow students to undertake an Erasmus traineeship for credit during semester time.

Principal's Go Abroad Fund

- In 2016 we sent 287 students to 73 countries in 6 continents.
- The students can apply for the funding to do:
 - Volunteering
 - Internships or traineeships
 - Conferences
 - Cultural activities
 - Research
- Students from all levels and schools can apply to go anywhere in the world.
- This year a new peer-assessment process was used to select the successful applicants.
