Qualifications for Careers in Research

Target Group
Postdocs, Postdocs in a group leader position and associate professors (Privatdozentinnen und Juniorprofessorinnen) of CUI: Advanced Imaging of Matter, QU, UKE, MIN.

Maximum number of participants: 12-15
All workshops will be held in English.

Module Goals
- Developing career and management strategies
- Promoting self-awareness of one’s individual career in science
- Preparation for future leadership positions in academia
- Acquiring hands-on tools to realize career opportunities

Registration
It is possible to attend the workshops individually. But we recommend to participate in all three modules.

To register please follow this link:
www.min.uni-hamburg.de/academicleadership

We offer free childcare. Please indicate upon registration whether you require this service.

CAREER STRATEGIES FOR WOMEN

Although many young women study natural sciences, the number of female medical doctors and natural scientists declines dramatically from the postdoc-level upwards.

In order to promote the career paths of women in academia and to prepare them for leadership roles, the equal opportunity teams of the participating partners joined to design this interdisciplinary training and networking programme.

The participating partners
- Cluster of Excellence “CUI: Advanced Imaging of Matter”
- Cluster of Excellence “Quantum Universe” (QU)
- University Medical Center Hamburg-Eppendorf (UKE)
- Faculty of Mathematics, Informatics and Natural Sciences of Universität Hamburg (MIN)

aim to increase the number of female scientists in leading positions in the field of STEMM (science, technology, engineering, math & medicine) and encourage training and networking across the different research fields.

MODULE I
Vocal Power and Physical Presence

<table>
