The four Clusters of Excellence of the University cordially invite you to a panel discussion on the experiences of international researchers at Universität Hamburg

Every year, our University welcomes new researchers from all over the globe. Despite their different backgrounds, these researchers face similar questions and similar challenges. This event zooms in on these questions and challenges:

• What support services can I find within the University as an international researcher?
• What do I need to know in terms of visa regulations and legal rights?
• How can I connect with other internationals and what networking options are there?
• What do I need to know about the German academic system in order to thrive in it?

The panel will feature a short presentation by the university’s Welcome Service with the opportunity for attendees to ask questions. This input will be followed by a panel discussion. The event provides a forum for international researchers to reflect together on the obstacles they have encountered or still encounter and on how these barriers can be removed.

The event is open to all interested students, researchers, and staff.

Wednesday, 7 June 2023, 12:30 – 14:00, Grindelberg 5, Room 1012, 20144 Hamburg
